

How are we making Ab Kettleby even better?

1. Support you and your families as school reopens for everyone again after the coronavirus lockdown.

We will do this by...

- Using our special 'Welcome back to school' lessons.
- Supporting you with your emotions, and with your mental and physical health.
- Finding out what you can do in reading, writing and maths so we know what you need to learn next.

2. Show you and your adult(s) how to access online learning if we need to do more learning at home.

We will do this by...

- Showing you what online program we will use.
- Explaining to you and your adult how to find the learning, and how to do it.
- Make sure you can do the learning, and that we can feedback how you are doing.

3. Work closely with Somerby Primary School (our partner school) to help make us both even better.

We will do this by...

- Helping each other to get better at teaching amazing lessons.
- Helping each other to look after all our children and staff.
- Aiming to be the best schools in the world!

4. Make sure your lessons are amazing, so you learn lots.

We will do this by...

- Making sure your learning is exciting and challenging,
- Making sure lessons support you to learn.
- Aiming for you to get great results at the end of the year.

5. Make sure we look after the well-being of you and the adults who work in our school.

We will do this by...

- Making sure you learn about well-being (mental health and physical health).
- Teaching ways to improve well-being.
- Making sure you and the adults in school know how to share worries.

6. Make sure our young children use their phonics skills to read the right books for them.

We will do this by...

- Teaching children how to use phonics to help them read.
- Make sure children have the right book for their reading skills (not too hard or too easy).
