

Class 2 -Spring 2 Review

Another busy term in Class 2 has come to an end, but what a term it has been! From making our own 'poo' with Severn Trent Water to karate taster sessions, it has been full-on fantastic!

This term, we explored what it means to be an eco-warrior. In English, we investigated Earth's plastic problem and studied some real-life eco warriors like Great Thunberg. We thoroughly enjoyed reading some eco-books such as 'The Mess That We Made' and 'Clean Up!'.
'

Class 2 were so moved having discovered some of the truths about the plastic problem, they wrote letters to our local MP asking for an end to single-use plastics like plastic cups.

We have worked hard in maths too studying fractions, shapes, directions, and furthering our times tables knowledge.

In Art we have enjoyed experimenting with colour and learnt how to make tones, tints, shades, as well texture. Our masterpieces this term include our beautiful treen of green and ocean of blue.

We have been very active this term too! In PE, we learnt how to play hockey and had many opportunities to explore other sports such as gymnastics and karate!

So much to enjoy from Spring 2, I wonder what is in store next term?!
