

Class 2  
Summer 2

~ Day is done, gone the sun.

So ends the final term of our school year in class 2, one that has absolutely flown by! From learning to 'kick a footy' to playing with some African drums. Class 2 have had a blast.

This term, we explored the wonders of human endeavour and asked the big question what are humans made of? We discovered all kinds of amazing humans like Nadia Comaneci, the first gymnast to score a perfect 10 at the Olympic level, and recent Australian of the Year: Dylan Alcott - renowned wheelchair tennis champion and motivational public speaker. We've learnt how to tell the time, explored the fine art of tongue twister poetry, learnt new games and challenged each other to achieve our best both in the classroom and around the athletics track. This term we held our annual sports day - a glorious day enjoyed by all with the Yellow Scorpions reigning supreme! We've mastered so many of our times tables and learned an extraordinary amount of new vocabulary too. This class has been simply on fire this term - you should all be proud.

So that's a wrap!

Farewell Class 2, enjoy your summer holidays and take care. 😊

Mr. B, out.
