

Class 3 Summer Term 2

This term has been mainly all about the Jungle Book production. As well as providing you all with a spectacular show we have learnt much from our preparation. Our school values of being **motivated** and **creative** have been beautifully demonstrated. **Courage** was definitely needed and

harnessed by our solo and duet singers. Class 3 proved conclusively that they really do **take pride in themselves** and of one another.

In Maths, our focus has moved on from the four operations to statistics. We have looked at line graphs and block diagrams. We discovered that the most popular subject in our class is Maths, and the most popular car was a Lamborghini (**Aspirational**).

Sports day was a real success. The weather was kind to us, and Class 3 set an amazing example to the rest of the school. They were **respectful, self-regulated** and **inclusive**. It truly was a proud day to be a Class 3 teacher.

As the year has come to a close, the children have been reflecting on the year gone by. For many of them, the highlights included a variety

of residential trip activities, from kayaking and archery, to campfires; for others it has been exploding bottle rockets, or the making and eating of Stonehenge. All in all, it has been a busy, productive, and exciting year. It has been my pleasure to teach this amazing class this year.
