

Spring 2 Review

We have had a half term full of imagination. We have loved using our imaginations within our writing and learning about Fact Vs Fiction. In English, we worked on our knowledge organisation to create a Non-Chronological Report all about our own imagined dragon. We then used AI to bring our dragons to life using our own descriptions. This included using adjectives, adverbs and exclamation sentences. We then looked at a new story book 'Leon and The Place Between' which we loved. We used this text to create our own diary entries talking about the amazing time we had at the magic show. We used the first person, past tense verbs and wrote about our feelings.

In Maths, we have had a big focus on Fractions. In year 2, we have found and recognised halves, quarters, thirds and even looked at how we find three quarters of an amount. In year 3, we have also looked at adding fractions, subtracting fractions and looking at fractions as decimals. We did find it tricky at times, but we persevered and made some really good progress in our understanding.

We have been learning about everyday materials and their uses in science this half term. This has involved lots of experiments to investigate the suitability of certain materials. We learnt about waterproof, durability, stretching, twisting and how we can use materials for houses. We really enjoyed the practical element of this unit. Computing was also lots of fun, we have learnt all about film trailers and enjoyed using the app 'iMovie'. We researched why trailers are important and how they can build excitement. We then decided to create our own book trailer to advertise one of our favourite books. It was lots of fun!

In DT, we have learnt about sculpting abstract 3D art. We enjoyed using card and different joining techniques to bring our flat shapes to life. In RE we have learnt about the Easter story and our music has involved learning new songs. We even had a go at being our own composers!

PE was lots of fun with a mixture of hockey and Tri-Golf. We worked on our steady base when holding a hockey stick. We also worked on our passing, dribbling and shooting. Eventually, we put our skills into a game scenario. We then moved onto Tri-Golf which we found very different to our normal PE lessons. We loved the different games and challenges involved. We also enjoyed a fabulous Red Nose Day which involved loads of red clothing and lots of fun.
