

In Honey Bee, our topic has been 'Mummy Mayhem'. We have had such fun exploring and learning about the Ancient Egyptians. From gods to hieroglyphs to why the River Nile was important. We loved our Egyptian Day and enjoyed getting hands on with mummification!

In our writing, we have explored diary entries and non-chronological reports. We loved pretending to explore an Egyptian tomb and bumping into mummies and treasure. We used noun phrases, adverbs and a wide range of features.

In Maths, we have explored multiplication and division. We have looked at making equal groups, counting the groups and then sharing out numbers equally. Year 2 have enjoyed applying this to their 2,5 and 10 times tables. Year 3 have applied their knowledge to their 3,4, and 8 times tables.

We had the absolute pleasure of being gifted some bulbs and trees to plant which

linked in with our science learning. We can't wait to watch how they grow during the next year.

We have been creating our own stop-motion animations in computing using the Ipads. We loved being creative and learning how to make our videos flow well using onion skinning. We got creative by making our own Egyptian Scrolls which we decorated using hieroglyphs and have enjoyed learning Christmas songs to sing in music.

Speaking of Christmas, we loved all the festivities! Christmas jumper day, breakfast with Santa, decorating our classroom and dealing with a very mischievous elf!! We can't wait to see what 2025 has in store for us.
